IN CASE OF EMERGENCY DO NOT USE ELEVATORS - USE EXIT STAIRWAYS

If a fire starts that is beyond your control to extinguish:
- Activate the nearest fire alarm pull station
- Close the door as you leave to contain the fire
- Follow the safest exit route

If you hear a fire alarm, feel doors for heat:
- Do not open door
- Place a blanket or towel at the base of the door
- Stay where you are and proceed to an exterior window and call for help

In the event of an earthquake:
- Duck, cover and hold
- Keep away from windows
- Evacuate only after the shaking has stopped

Call 911 from any phone.
Report the fire location, injuries and trapped or disabled individuals
IN CASE OF FIRE

FOR YOUR SAFETY IN AN EMERGENCY

• If you detect fire or smoke, call “operator.”

• If you must leave your room, feel the door to see if it is hot. If it is not hot, open the door slightly to see if you can make it to the nearest evacuation stairwell (shown on the plan below). Stay low to the floor and take your key.

• If the smoke is heavy, seal the door with wet towels. Do not panic. Do not use elevators.

FOR YOUR SECURITY

• Safe deposit boxes are available at the front desk for safeguarding your valuables.

• Be sure to secure your deadbolt lock and security latch.

• Use peephole and fully identify all visitors. If you doubt anyone’s identity, please call “operator” for assistance. All employees are required to wear name tags.

• Insure that all windows, connecting doors and sliding glass doors are locked.

• This placard explains guest fire safety and security. If you have any questions, contact the operator.
